

# Bilingual IFS Integration Workshops French/English

## October 10-11, 2021

Rixensart (Belgium)

In these Integration Workshops, we combine everything that can support the Integration of the IFS Model in order to meet the needs, questions and requests of the participants, starting from what is alive in the group and the experience of each one. Each Module is therefore tailor-made in function of who is present.

We mix practical, theoretical and personal work in order to reduce the interference of our own system in the therapeutic process and to develop a supportive and adjusted quality of presence that elicits and strengthens the relationship between the Self of the person and its parts.

### **The supports proposed throughout the workshop will be varied:**

Supervision of your practices, practice with personalized coaching, demos with debriefing, exercises on your own system, discovery of various work supports, experiments promoting awareness, role-playing, questions about theoretic points...

We will call upon the creativity of the Self to vary the proposals, the tracks and axes of work and exploration of our systems and will start from your questions, needs and requests.

In order to best support your progress and to enrich the contributions, we will be 4 trainers for this exceptional Bilingual workshop: **Ariane Girard, Nadine d'ydewalle and Bernard Piaget** will lend me a helping hand to accompany you in the best possible way. They all are experimented IFS practitioners and trainers, are trained in IFIO (relational IFS therapy, couples) and for IFS and children.

We will spend some time **all together**, to taste the links and dynamics of a large group. And we will spend a good part of the time in two distinct groups, to accompany you at best **in either French or English**.

Each IFS Integration workshop validate **12 hours of continuing education** in the IFS-Institute certification process.

**Organised by Vinciane van Outryve**

Certified IFS therapist

Trainer and Supervisor

Trained in IFIO (Relational IFS therapy, couples),  
IFS for children
